

Multiplier Event 31-10-2022 Zaragoza, Spain

“Social and Economic Empowerment of Migrant Women” – WINGS
Erasmus+ Programme – Strategic Partnership
AGREEMENT N°: 2020-1-NL01-KA204-064669

After the entire project development, GEINNOVA organized a multiplier event on October 31, 2022, to share the results of these activities in Spain with migrant women, adult educators, non-formal trainers, vocational trainers and training providers, migrant support workers, job coaches and other stakeholders.

The event was widely disseminated through our email and newsletter database, as well as with specific audiences we wanted to inform about the project.

During the event, we covered the following topics:

IO1 – Presenting the Basic Skills Handbook. We explained the background, development and content of the training method.

IO2 – Trainers of the Wings Local Action Programme shared their experiences with the attendees.

IO3 – We presented the context and development of the **Multimedia Good Practice E-booklet**.

IO4 – E-learning platform. We explained how to navigate it.

IO5 – Policy Paper. A summary of the proposal was discussed.

The event closed with a networking session with all levels and groups of stakeholders and partners. We met all objectives of the ME, which were: to disseminate key concepts, objectives and results of the WINGS project; to introduce to attendants the personal stories of migrant women who participated in the WINGS Local Action Programme; to build synergies between people; and engage the community, both local natives and migrants.
